

CANNABIS LEGALIZATION AND ITS IMPACT ON INDIGENOUS COMMUNITIES IN ALBERTA

Learning Objectives:

- Discuss cannabis basics
- Outline the short- and long-term effects of cannabis
- Review the use of medical cannabis
- Summarize information regarding cannabis use among indigenous people in Canada
- Review legal considerations of cannabis possession and use
- Discuss cannabis use by healthcare professionals
- Provide information on reliable cannabis resources

Presenter By: Dr. Ellina Lytvyak

Dr. Lytvyak is a Year 2 physician resident in the Public Health and Preventive Medicine program at the University of Alberta. She is originally from Ukraine where she obtained her MD and PhD degrees. She has also received Fulbright scholarship from the United States Department of State and completed Post-Doctoral Fellowship in Public Health at the University of Alberta. One of her interests lies in exploring health effects of cannabis as it pertains to health and well-being of Canadians.
