

ANTI-PSYCHOTICS: DRUG MANAGEMENT AND SCHIZOPHRENIA

MARCH 19, 2019 1400 – 1500

This session will cover basic background information of schizophrenia, signs and symptoms, challenges for treatment, treatment goals, treatment effects, etc. Then we will go into the details of each treatment, covering their pros and cons, dosing schedule and costs to the patient. At the end, we will discuss smoking and medication interactions and relapse prevention.

Speaker Information: Frank Huang, 4th Year Pharmacy Student, Rotation at The Medicine Shoppe Pharmacy 32

The Schizophrenia Society of Alberta is now offering peer support opportunities via Telehealth. The Peer Support Outreach Program is designed to increase the quality of life and decrease isolation for individuals who are living on First Nation reserves and are struggling with their symptoms by providing social and emotional support to achieve their own personal recovery goals and reintegrate into community life. For more information on this program and/or to access to referral form, visit www.fntn.ca

Live stream and audio lines will be made available for those who cannot attend via videoconference

The First Nations Telehealth Network would like to thank the Schizophrenia Society of Alberta, Edmonton Zone for their collaboration in creating this videoconference session. For more information on the SSA visit
