

DIABETES 101 SERIES

MANAGEMENT- MEDICATION 101

MAY 9, 2019
13:30 – 15:00

The seventh session of Diabetes 101 takes a look at diabetes medications – what they are and how they work.

Learning Outcomes

1. Understand how diabetes medication affects the body
2. Identify and understand the different types of medications for diabetes
3. Understand the medication treatment options for diabetes
4. Learn about the management of diabetes with Insulin

Presented By: Sandra Kennett, BScN, MN, CDE
Acting Nurse Zone Manager/Nurse Advisor, Nursing Education, Indigenous Services Canada.

I have 20 years community nursing experience with primary care, home care and public health. I worked in a primary care setting as a Clinical Nurse Specialist and Certified Diabetes Educator for 10 years. I have extensive clinical experience in the area of diabetes management and have been a Certified Diabetes Educator since 2008. I received the Diabetes Educator Award, Diabetes Canada, 2017. I have my Masters in Nursing, University of Alberta and three years of a Doctoral Nursing Degree.
