

# Harm Reduction Series Collaborating with the Harm Reduction Services Team

**JULY 22, 2019  
10:00 AM – 11:00 AM**

Join us for the ninth session in the Harm Reduction Series. The First Nations Telehealth Network has welcomed the Alberta Health Services (AHS) Harm Reduction Services Team (HRST) to discuss opportunities for collaboration to support harm reduction in your community. The HRST will highlight who they are, how/why the team was created, what they hope to accomplish, and what the HRST can offer you. Information will also be shared on how to get the most out of the Community Based Naloxone Program and answer any questions you may have about it.

The idea is for this session to be as interactive as possible. All participants are encouraged to come with questions and offer opinions throughout. This session is meant to offer opportunities for collaboration with communities and Alberta Health Services.

## Learning Outcomes

- Identify who their local Harm Reduction Zone Lead is and how to connect with them
- Define harm reduction and provide examples
- Explain what the Community Based Naloxone program is and how they can become involved in it
- Identify potential resources the HRST is willing to share or help them find

Healthy Albertans.  
Healthy Communities.  
**Together.**

SESSION 9 IN THE HARM  
REDUCTION SERIES

---
