

COVID-19 Treatment Clinical Trial

Does Hydroxychloroquine prevent serious COVID-19 infections?

You can help answer this question!

What Does a Participant Do?

- 30 min phone interview about their medical history & eligibility
- receive a bottle of tablets by courier and take them for 5 days
- 15 min phone interview on Day 7 and Day 30
- allow their medical records to be checked by a researcher

You might be eligible to participate if you:

- are 18 years or older
- have a recent positive COVID-19 test (4 days) and symptoms (12 days)
- have **any risk factor** for serious COVID-19 infection

Your safety is important to us.

You will not be eligible to participate if there is any reason that you should be under a doctor's supervision while taking Hydroxychloroquine.

Some Risk Factors for Serious COVID-19 Infections Are:

- 40+ years old
- Current smoker
- Asthma
- High blood pressure
- Diabetes
