

Cyber Security in the Health Sector

January 19th, 2020

13:30-14:30 MST

This session will provide an overview of cyber security and what you can do to improve your cybersecurity.

Learning Objective:

At the end of this presentation, the participant will have a better understanding and appreciation for cyber security in the digital world, its importance, the risks and how to better protect yourself against cyber threats.

Speakers:

Sylvie Godin - I am a senior Analyst in the Partnership team who has been working at the Canadian Centre for Cyber Security / Communications Security Establishment for almost 10 years. The Cyber Centre is the single unified source of expert advice, guidance, services and support on cyber security for government, critical infrastructure owners and operations, the private sector and the Canadian public. My role is to help the Cyber Centre understand the cyber security state and needs of the Academic and Health Sector, and help both Sectors improve their cyber security resilience with sound advice and guidance from our technical team. I hold a Master degree in Business Administration, a Master of Science degree in Human Resources and Industrial Relations and a Management of Information Systems Certificate.

Target Audience:
Employees working in the
Health Sector
