

# Gabor Maté: Trauma, Illness & Healing

## hosted by The Newly Institute

This talk shows how a society dedicated to material pursuits rather than genuine human needs and spiritual values stresses its members, undermines healthy child development and dooms many to chronic illness, from diabetes to heart disease, from autoimmune conditions to cancer.

### Learning Outcomes:

- Identify two separations imposed by Western Medicine on the health and well-being of the population.
- Name three chronic conditions that are correlated with stressful social environments.
- Describe one shift in focus that would support a healthier population.
