# Prostate Cancer Information to Help Healthcare Providers Support their Patients

October 9, 2024
1:30-2:30pm MDT

Prostate cancer is one of the four most common cancers affecting Indigenous and non-Indigenous people in Alberta. Join this session to learn more about prostate cancer, common treatments and effects, and supports available to help patients. Questions will be welcome.

**Please note that this session will not be recorded or uploaded to our website.

Learning Outcomes:

- How prostate cancer is diagnosed, and the range of prognosis with prostate cancers
- What the most common treatments are, when they are likely to be used, and what common side effects and sensitivities people might experience
- Supports available to help patients and families

Speakers:

Dr. Jackson Wu, Radiation Oncologist

Lucy Laboucan, Indigenous Cancer Patient Navigator

Target Audience: Information for Healthcare providers including physicians, NPs, Homecare, physio, OT, etc
